

Skills

Back-End -	Java (OOPs), JDBC (Java Database Connectivity) , Servlet, Collection, Multithreading, DSA.
Front-End -	HTML, CSS, React.js, Node.js, JavaScript
Frameworks -	Spring Boot, Hibernate
Database -	MySql, SQL, MongoDB
Tools -	Eclipse IDE, Git, GitHub, Visual Studio Code, Figma , Netlify
Cloud Services -	AWS, Azure, Heroku
Testing & Debugging-	Jest, Mocha, Cypress, Postman
APIs -	RESTful APIs, GraphQL

Work History

Backend Executive Full Time	12/2025- Present
Provana IND PVT LTD- Noida	
- Managed backend operations including data processing, documentation, and internal reporting using tools like MS Excel, Tally ERP, and SAP, SQL. - Utilized SQL to query, update, and manage relational databases; created custom reports and performed data extraction for analysis. - Assisted in automation and optimization of backend workflows using tools like Power BI, Google Sheets (App Scripts), and custom ERP systems.	
Full Stack Developer Full Time	06/2024-09/2024
Astrotel.in- Kanpur	
- Full software development lifecycle expertise, from concept to deployment. - Cross-platform development with attention to detail in both UI/UX and back-end. - Strong understanding of database management, API integrations, and server-side technologies Excellent team collaboration . - Excellent team collaboration and communication skills	
Full Stack Web Developer Intern	01/2024 -03/2024 (Certificate)
Webistic.in-Mumbai(Remote)	
- Conducted A/ZtestingtovalidateUIenhancements,resultingina25%increaseinuser interaction metrics and overall satisfaction. - Engineered and deployed responsive web applications leveraging HTML, CSS, and JavaScript;boosted user satisfaction scores by 55% and cut page load time by 50%.	
Java full Stack Developer	01/2023–06/2023 (Certificate)
byteCodeITSolution-Kanpur	
- Completed intensive Java internship, mastering Core Java, JDBC,Servlet, and Spring Boot; applied skillsto increase backend server efficiency, reducing response time by25% and server errors by15%. - Managed robust database solutions using NodeJS, ORM, and SQL/MY-SQL, enhancing data integrity and decreasing data processing time by 35% for 10+ critical applications.	

Accomplishments

Bond Book System: (SpringBoot,HTML5,CSS,JavaScript,Tailwind,Hibernate)

- Developed adaptive interface solutions that increased site engagement by30% through improved loading speeds; findings to fix three biggest causes of crashes led to heightened customer satisfaction rates.
- Designed a RESTfulAPI to allow integration of the contact system with external applications extended functionalities. Executed test in implemented debugging tools, resultingina 20%improvementin the system reliability and stability.
- 80% Original Focus: Developed a CRUD application for managing contacts, stream lining the organization of personal details, addresses, and communication history.

MakeOver-Smart: (HTML5, CSS, JavaScript, React.JS, Node.JS)

- Designed a vibrant, user-friendly website for make over ,incorporating advanced features like onlinebooking and customer reviews, resulting in a 35% increase in customer engagement and portfolio expansion.
- Created a user-friendly online booking platform for a beauty parlour, optimizing appointment scheduling, reducing no-shows by 25%, and boosting customer engagement by 40%, thereby improving operational efficiency and client retention..

BankManagement System: ([FullStackJava](#))

- Conducted thorough testing to ensure system reliability, accuracy,andsecurity,achievinga 99.9% uptime and reducing transaction errors by 50%.
- Created specific process automation features within the Banking Management System that cut manual processing time down from 30minutes per task to just 10 minutes while maintaining high levels of data integrity

Education

Bachelor of technology: Electronic Engineering,	06/2024
Dr.Ambedkar Institute of Technology For Handicapped-Kanpur,India (Final Grade: 7.5 cgpa)	
Diploma: Electrical Engineering,	06/2021
Govt Polytechnic Mirzapur-Mirzapur,India (FinalGrade:8.15 cgpa).
